Description of Project

The project will include aggregate chip seal coating and fog oil sealing of the pavement along 2nd Street NE, from Central Avenue North to the eastern limits, as well as 2 1/2 Avenue NE, from 2nd Street NE to the southerly limit. The project locations are shown below.

Schedule

Work will begin the week of September 11, 2023. Inclement weather may delay construction.

Access

Temporary road closures will be utilized during active work.

Residents will have access to your property except when work is being done directly in front of your driveway.

Please observe flaggers/traffic control and no on-street parking restrictions during the work. Please avoid driving over freshly sprayed asphalt oil until cured as directed by the contractor.
